

# Meeting 7

Date: 02/05/2016

Facilitator: Alex

Participants: Tuyen, Emil, Tove, Alex

## Objectives (5 min).

- *Decide what to do.*

## Reports (15 min).

- *Tuyen has managed to insert a youtube fragment into an activity that extends AppCompatActivity*
- *Emil has created lists of schools and subject. Also navigation between them works.*
- *Tove has created a working ProfileActivity.*
- *Alex has added navigation drawer to activities and created a Navigation class. Also an activity between Start and browse lists.*

## Discussion Items (35 min).

Things to do:

- Emulate database in a structured way.
- Implement a way to create an account.
- No Navigation drawer or toolbar in QuizActivity?
- Individual text for toolbar in each activity.
- Border around selected option in Quiz.
- Dialog when clicking on the back button in QuizActivity.
- Discuss the design of the application.
- Point system?
- Quiz modes?

## Outcomes and Assignments (5 min).

- *Needs to be done but is not assigned: Toolbar, StatisticsActivity and search function.*
- *Alex refactor navigation drawer and Work on the design. Use styles.xml, strings.xml and colours.xml.*
- *Tove Profile and Create Account.*
- *Tuyen LessonActivity (emulate comment, create lessons with video and quiz) and QuizActivity.*
- *Emil Lists alphabetically and work on LessonListActivity tabs.*

## Wrap up!

- Next meeting on wednesday 04/05/2016 Location: TBA.
