

Meeting 9

Date: 10/05/2016

Facilitator: Tove

Participants: Tuyen, Emil, Jonathan, Tove

Objectives (5 min).

- *We need to extend database function*
- *Our report needs attention*
- *We need to decide our design for the app and what functionality to implement*
- *We don't have hats*

...

Reports (15 min).

- *Tuyen made a decorator pattern for quiz*
- *Jonathan has implemented a system for points*
- *Emil made lists*
- *Tove worked with user and implemented local storage*

...

Discussion Items (35 min).

- *Our colors are teal and amber*
- *We have started to work with padding instead of letting objects fill the screen*
- *We could implement a star or something for starring courses directly from the list of courses*
- *We should make a view for My courses*
- *The app should give an error message instead of crashing when it can't access Firebase*
- *We need to make a proper teacher functionality*
- *We should put the values folder for our design. Sp, dp*

...

Outcomes and Assignments (5 min).

- *Jonathan: Database*
- *Tuyen will implement progress in quiz activity for timed quiz*
- *Emil: Search*
- *Tove: Design*

...

Wrap up!

- *Next meeting will be held on Friday at 11.00 am.*
