

# Meeting 3

Date: 18/04/2016

Facilitator: Jonathan

Participants: Tuyen, Emil, Jonathan, Tove, Alex

## Objectives (5 min).

What are we supposed to have finished by the end of this week? Tests, sequence diagrams?

## Reports (15 min).

We've begun with the sketches, but a lot of work remains.

We have the first iteration of the domain model finished.

## Discussion Items (35 min).

We assume that we are supposed to have two sequence diagrams and JUnit tests of two use cases finished by friday.

## Outcomes and Assignments (5 min).

Create two sequence diagrams and JUnit tests based on two high-priority use cases.

Tinker around with android studio, make a few example applications.

Finish sketches by end of this week.

## Wrap up!

Next meeting: 20/04/2016
