

Meeting 6

Date: 28/04/2016

Facilitator: Tove

Participants: Tuyen, Emil, Jonathan, Tove, Alex

Objectives (5 min).

- *We need to decide which tasks we need to do*
- *Prepare oral presentation in Communication*

...

Reports (15 min).

- *Finished web analysis in Communication*
- *We have decided to focus less on different modes for now*
- *Jonathan made a quiz view activity that works! (Sort of. At least you can do a quiz)*
- *Emil made recycler view list*
- *Tuyen is checking out toolbar and navigation menus*
- *Alex made a start screen*
- *Tove started on a profile view*

...

Discussion Items (35 min).

- *We have no colour theme yet, but won't focus on that yet.*
- *We are changing the class name Option to Answer. The former Answer is changed to CorrectAnswer.*
- *We will add a main class.*

...

Outcomes and Assignments (5 min).

- *We will push everything to git and discuss what works and what needs to be changed.*
- *We need to create a document that specifies coding standards, such as variable names.*
- *Jonathan: see if answer is correct and change name to answer and place it in question class*
- *Emil: List navigation + school object*
- *Tuyen: Lesson activity*
- *Alex: Screen between start and browse + menu*
- *Tove: Profile activity*

...

Wrap up!

- *Next meeting: Monday 2/5*
