Date: 23/05/2016

Facilitator: **Jonathan**

Participants: **Tuyen, Emil, Jonathan, Tove, Allex**

Objectives (5 min).

Reports (15 min).

- → *Jonathan: SDD basically finished. All UML stuff done. Report almost finished. Has generalized ListActivities, both XML and .java.*
- → *Tuyen*
  - ◆ *Finally pushed a big refactoring with eventbus. Should decouple activities and lists even further.*
- → *Tove: Implemented list view for users. Worked with login.*
- → *Emil*
  - ◆ *Fixed search suggestions.*
- → *Allex: Fixed design of lists*

Discussion Items (35 min).

- → We have to fix minor issues in the separate TODO, as well as finish up the work outside of implementation.

Outcomes and Assignments (5 min).

- → *Outcomes from **Discussion Items**. Write down **what** we've decided and **why** it was decided! Synchronize with other documentation. (add any new terms to the internal dictionary)*
- → *Use all the previously discussed material from **Objectives**, **Reports** and **Discussion Items** to reassign each member of the group new issues to solve.*
- → *Tove:*
  - ◆ Gör så att UserListActivity använder NameableListActivity (se: SchoolListActivity)
  - ◆ Implement new login functionality
  - ◆ "Logga in för att komma åt funktionen" needs to change. Popup "Du behöver vara inloggad för att komma åt den här funktionen" eller liknande.
- → *Tuyen:*
  - ◆ *Change BusEvent's variables to final*
  - ◆ *Work on design*
- → *Emil:*
